ABSTRACT

This inventory of subdivision activity in the Missoula District was sponsored by and prepared for the Bureau of Land Management, Missoula District Office, Missoula, Montana. The purpose of the report data and maps is to present information regarding residential subdivisions of lands which are in the vicinity of BLM tracts, also referred to as "national resource lands." Individual statements concerning possible impacts of development upon adjacent or nearby public land are included in each subdivision activity inventoried.

It is becoming increasingly evident that rapid and often uncontrolled development is having detrimental effects on the intended uses of BLM lands, which include: grazing, timber and winter game range management, mining, and general outdoor recreation for the public at large. Among conflicts developing between privately and publicly owned acreage are: public access routes legally and/or physically blocked by private action; excessive use of resource lands by adjacent residential development; water, air and visual pollution of public resources; excessive use of unimproved BLM roads for private access; impacts on winter game ranges from haphazardly placed residential tracts; and an increasing amount of abuse of national resource lands.

The report includes three main components, the first of which is a brief history, analysis and condensation of Montana's subdivision (and related) laws since 1961 when the 1885 law was updated. Recent legislative rulings will prove to be significant in determining the quality and quantity of future residential development.

Following this synopsis are the second and third components: individual data sheets are grouped into six geographical areas and are portrayed on the six fold-out maps.

Although this inventory represents a thorough examination of available sources, much information on subdivision activity simply is not recorded. A follow-up study of the inventory with the purpose of updating and analyzing collected data to show land use trends would prove beneficial to the Bureau of Land Management and other interested agencies.

OBJECTIVES

Montana's agricultural base, open spaces, quality hunting and fishing, clean air and water are beginning to show definite signs of abuse. The Bureau of Land Management, a department of the federal government, owns thousands of acres in Montana which are devoted to these very uses, but which are also developing signs of abuse. Excessive use and misuse of public lands in many cases is caused directly and indirectly by rapid urbanization of privately owned land. The Missoula District, composed of portions of four counties -- Missoula, Granite, Powell, and Lewis and Clark -- is among the most newly developing parts of the state. In fact, urbanization is often occurring so rapidly that federal and state governments have difficulty keeping abreast of the situation. In the Missoula District alone, since 1969, rural land prices have increased 100 to 500 percent.¹

This study was undertaken to uncover present effects from urbanization and to project future effects of fully developed residential areas within the Missoula District. There were two objectives of the inventory: (1) to search out sources and record all available information on subdivision activity, and (2) to analyze possible detrimental impacts which developments may exert upon adjacent or nearby public lands.

¹ Brunner, J. David. "Analysis of Land Use Trends in the Missoula District," March 7, 1973, page 4.

METHODOLOGY

The inventory of subdivision activity covers the entire BLM Missoula District, consisting of four counties: Missoula, Granite, Powell and Lewis and Clark. Within these counties and in some cases, including portions of more than one county, are BLM "Planning Units." The boundaries of these units encompass large concentrations of public land and are means by which to identify these concentrations. The table below shows the composition of these planning units.

<u>Planning Unit Name</u>	<u>County</u>
Blackfoot	Missoula; Granite; Powell
Philipsburg	Granite
Hoodoo	Powell; Lewis and Clark
Marysville	Lewis and Clark
Gates of the Mountains	Lewis and Clark
East Slope	Lewis and Clark

The planning unit boundaries are not necessarily contiguous with the "Study Area" shown on each map. In the cases of Blackfoot, Hoodoo and Philipsburg planning units, a larger area encompassing the unit is designated as the "study area." This was done in order to create less irregularly-shaped areas within which to work. In Lewis and Clark County, however, the three planning units share common boundaries, which negated the need or opportunity for an area larger than the individual planning unit.

For Missoula, Powell and Granite counties (i.e. Blackfoot, Philipsburg, and Hoodoo planning units) all subdivision activity was recorded in detail except townsites and their early additions dating from the late 1800s. The research methodology was altered somewhat in Lewis and Clark County due to the large number of subdivisions and surveys having taken place in and around Helena and East Helena. All subdivision activity was recorded in detail for the East Slope (northernmost) planning unit; however, in the Marysville unit activity within and directly west of the current Helena city limits were omitted. Generally speaking, this area is totally developed yet is several miles from the nearest public lands. Within the third Lewis and Clark planning unit, Gates of the Mountains, only those subdivisions and surveys within one mile of public lands are recorded. Thus, the planning unit map does not reflect a total picture of urbanized areas. Those areas in proximity to BLM land are considered to have the greatest potential for exerting impact upon the **public lands**.

Project Organization

The research phase was conducted during the first nine weeks of the project's twelve weeks, and the final report was written in the remaining three weeks.

Collected information was recorded in two ways: (1) on a property identification form (one for each event of subdivided land), and (2) on a planning unit map. These forms and maps represent the major portion of this report. Additional chapters are devoted to: a history of Montana's subdivision laws; photos of selected subdivisions; and recommendations for a follow-up study.

Each property identification form is keyed to a location on the corresponding planning unit map, by symbols which are explained in the map legends.

A brief description of the kinds of information that were collected is presented below.

Property Identification

Although this project was initially entitled a "subdivision inventory," subdivisions account for only a portion of subdivided private property. Certificates of survey; property filed lot by lot, and leased lands; and townsites and early additions thereto, account for the other three categories included in this study. Because of the changing state laws regulating the subdividing of land, what was referred to in 1973 as a "certificate of survey" may have become a "subdivision" in 1974. Thus, "Property Identification" refers to the way in which the land in question was filed, according to the state law in effect at that time. (Please refer to chapter, "History of State Subdivision Laws: Briefs" for definitions of "subdivision" and "certificate of survey.") Legal subdivisions are numbered for reference and those shown as 1-A and 1-B, for instance, contain more than one phase of development. Certificates of survey are denoted by letters A through Z. This category includes surveys that created two or more parcels, lots or tracts; excluded were surveys which created parcels for: an occasional sale, transfers within the immediate family, court orders and boundary redefinitions.

Lot-by-lot filing indicates the property was subdivided before 1973 when the ten-acre maximum lot size was established for subdivisions. In fact, dates of subdivision are not recorded in these cases because no official survey was made; parcels were simply designated by existing

corner stones from previous government surveys. The majority of these lots were under original ownership of large land development companies.

Lands which are leased for residential-recreational purposes are for the most part under ownership of the United States Forest Service and Anaconda Company. Restrictive covenants accompany a "special use permit" for people who wish to construct dwellings on leased parcels. Generally, these parcels are in well-known recreation areas such as Georgetown Lake.

Platted townsites and early additions thereto began appearing in the late 1800s. Relatively little information is provided by early plats and it is quite difficult to ascertain the number of lots sold and developed since most townsites contained 200 to 600 lots. For these reasons this inventory presents only a list of townsites within each planning unit, although townsite plats are considered legal subdivisions.

Other Information

Information was collected through a number of steps, beginning with county listings of recorded and unrecorded subdivided property, which were provided by the Environmental Information Center in Helena and the State Department of Revenue. It was found that both accounts were not completely accurate, therefore they were used as checklists.

Research began in the county courthouses; county planning directors or members of county planning commissions provided overviews of subdivision activity in their counties. Subdivision plats and certificates of survey which are filed in the Clerk and Recorder offices, provided the following data:

- (1) the subdivision's name or certificate of survey number - every subdivision and survey is numbered by the county with a survey number, but only subdivisions are filed by names.
- (2) legal description - showing township, range, and quarter sections which are cadastral survey terms.
- (3) the filing date (in most cases)
- (4) developer/owner - person who caused the property to be surveyed or subdivided.

- (5) type of approval received to date - all recorded certificates of survey and subdivisions have received county approval; state approval means that sanitary restrictions imposed by the Department of Health and Environmental Sciences have been lifted.
- (6) number of lots
- (7) acreage (frequently)
- (8) access to lots (frequently)
- (9) covenants - if any, they are listed in deed books, on microfilm, or attached to the subdivision plats, according to various county practices.

County Classification and/or Assessor's offices maintain recordings of land and improvement values, which also provide the number of lots that are sold and developed. Due to a lack of sufficient time, a comprehensive examination of sold and developed lots was not completed. In addition, lot and/or acreage selling prices were not uncovered because this information is not available to the general public. Occasionally, realtors and spokespersons for the land development companies divulged prices during telephone conversations, and in a few instances prices have been advertised in newspaper

Type of residency was determined by geography and topography of the area, condition of access routes and type of structure.

Habitat is discussed on the few environmental assessments and environmental impact statements that have been written by the Department of Health and Environmental Sciences. Personal observation and various maps also provided habitat types.

Possible impacts on public land are based on the distance between the private land and the nearest BLM tract. Impacts include: (1) visual impact: whether or not the private acreage would be visually affected by cutting timber, grazing animals or other BLM activities, and visual effects residential activity may have on the public lands; (2) pollution of streams, creeks or rivers passing through residential areas before entering public resource areas; (3) possible excessive use of adjacent or nearby resource lands because of access routes and a large number of developed residential sites; (4) possible misuse of resource lands from dumping garbage or rubbish; and (5) legal or physical blocking of access to public lands.

The inventory is conservative in nature due to inconsistencies between county recording processes and the considerable number of unrecorded contract for deed sales.

CHAPTER I

The purpose of this study is to provide a comprehensive overview of the historical development, current status, and future prospects of state and county subdivision laws. The study is organized into four main sections: a historical overview, an analysis of the current legal framework, a comparison of state and county laws, and a series of briefs on specific issues.

The historical overview section traces the roots of subdivision laws back to the early days of settlement, when land was often divided into small plots for individual use. As the population grew and the need for more organized land use became apparent, governments began to enact laws to regulate the process. This section discusses the evolution of these laws over time, highlighting key legislative milestones and the influence of various factors such as population growth, economic development, and social change.

The analysis section provides a detailed examination of the current legal framework governing state and county subdivisions. It explores the various types of subdivisions, the requirements for obtaining permits, and the role of local government in the process. This section also discusses the challenges faced by jurisdictions in enforcing these laws and the potential for reform.

The comparison section offers a side-by-side look at the differences between state and county subdivision laws. It examines how these laws vary in terms of scope, content, and enforcement, and discusses the implications of these differences for landowners and developers.

The final section consists of a series of briefs on specific issues related to state and county subdivisions. These briefs cover topics such as the impact of zoning laws, the role of public utilities, and the effects of environmental regulations. Each brief provides a concise summary of the issue and offers recommendations for further action.

STATE AND COUNTY SUBDIVISION LAWS: HISTORY AND ANALYSIS

State Laws

Until the signing of Senate Bill 208 on April 2, 1973, residential land development in Montana was regulated by the 1885 subdivision law (Chapter 6, Title II, RCM 1947). During that time, two pieces of state legislation provided for controls on land subdivision in the form of updated sanitary requirements.

In 1961 the 37th State Legislature updated the antiquated law and established the first definition of a subdivision: a division of land into five or more parcels any of which is less than five acres. The majority of subdivisions at this time contained lots of 1.5 acres and smaller. Most urban subdivisions had lots measuring approximately 0.5 acre. Sanitary restrictions were to be imposed on all subdivisions which did not have state board of health approval; however, the developer could record and file a plat as well as sell lots without state approval. A common tactic used by the developer was to include in the deed or sales contract a statement that dwellings could not be constructed until sanitary restrictions had been lifted. Even today, developed and undeveloped lots that were created in the 1960's have not yet had sanitary restrictions removed; present-day buyers often must accept the responsibility that was originally sidestepped by the subdivider.

Before 1973 several large land development companies purchased literally thousands of acres in Missoula, Powell, Granite and Lewis and Clark counties (among other counties) for as little as \$15 per acre. The lands were then subdivided into 10-, 20- and 40-acre parcels. The subdivision laws at this time pertained only to parcels of less than five acres; therefore the developers were not required to record surveys of such lots, much less provide adequate sanitary conditions, roads or other services. Parcels were described by a metes and bounds survey, or a "compass and chain" method, thereby dividing a 640-acre section into multiples of ten and twenty acres.

Reforestation, Inc.; Western High Lands, Inc.; Timberland Resources; and Harding and Muller are the major development companies owning land within the Missoula District. Few of the parcels have been purchased outright; the most prevalent method of transfer has been on a contract for deed which may involve payment over a period of years, at the end of which the deed is transferred and the transaction is recorded at the county level.

Important measures taken by passage of Senate Bill 208 include requiring environmental and community impact statements of all proposed developments. The assessment is distributed at state and local levels for comments from those agencies which can furnish

valuable expertise needed in the review process. Intended as an information source for the reviewing body, the impact statement can also be considered a protective measure for the general public.

Also required by SB 208 is a public hearing for each subdivision, which provides individuals and special interest groups to voice opinions on developments proposed for their area.

The required dedication for park and playground land, initiated by SB 208, is necessary in order to insure sufficient amounts of open space within a development that could otherwise ignore recreational and emotional needs of its residents. However, since 1973, this legal stipulation has been sometimes regarded as another requirement for developers to circumvent. During the research phase of this subdivision inventory it was discovered that numerous proposed developments have received conditional approval or disapproval by the county planning boards because the park or playground areas covered land too steep for such use or otherwise ill-suited for the intended purpose. In order for final plat approval to be granted the developer must rework the physical layout to accommodate correctly the required one-ninth or one-twelfth of the subdivision's area.

A very significant clause in SB 208 specifies that the bill be implemented in conjunction with the health and sanitation legislation which requires two additional steps in the subdivision review process: (1) that all subdivided land in the state must be filed as a suitable plat in the county Clerk and Recorder's office before any land is sold, and (2) that these plats may not be filed until the State Department of Health and Environmental Sciences approves the plats and lists the sanitary restrictions on the land.

Required submission of environmental assessments for most subdivisions is another significant clause in SB 208. For the first time in Montana subdivision laws, a subdivider must consider the topography, vegetation and wildlife, soil characteristics, and public services as they might be affected by residential development. Consideration is to be given to adjacent uses and ownerships, as well as the immediate area, including land under the jurisdiction of the Bureau of Land Management.

According to the 1973 definition of "subdivision," division of land into parcels larger than ten acres (and amended a year later to larger than or equal to twenty acres) comes under the category of "certificate of survey." This means of recording and filing lots is much less complicated and costly than the process for recording and filing subdivisions. Accordingly, after SB 208 became effective developers would create lots of slightly larger than ten

acres thereby allowing them to simply file a certificate of survey and avoiding requirements pertaining to ten-acre parcels. In Missoula County, for example, certificates of survey containing parcels of land ranging in size from ten to eleven acres accounted for about 20 percent of the certificates of survey filed as of March 31, 1974.¹ Between the months of July 1973 and April 1974, approximately 252 certificates of survey were filed in the Missoula County Clerk and Recorder's office, whereas only nine subdivisions were submitted for county approval during that period.² Although many of these certificates and subdivisions were located outside this inventory's study area, the trend is applicable to the Missoula County Study Area, as well as the remaining five study areas.

The July 1974 enactment of House Bill 1017 redefined subdivision to include larger parcels, thereby expanding the category. Since that date, all subdivision laws have pertained to divisions of land creating one or more parcels of sizes less than twenty acres.

The most revolutionary subdivision controls were imposed in 1975 by the 44th State Legislature. House Bill 666 has been untested in many Montana counties between the date of its effectiveness and the date of this writing. County officials within the Missoula District have voiced varying opinions as to the law's potential effectiveness. General consensus is that the intent of the law was desperately needed in order to regulate rapid subdivision of land, but that the act itself is vague and difficult to implement as law. However, HB 666 does enable the municipalities with the power to disapprove those developments which are not in the public's interest. A key word in the law is "need"—the subdivision must demonstrate that it fills a need in its proposed rural or urban area, as based on public opinion, existing and proposed services, the tax base, natural habitat and public health and safety.

Two less publicized outcomes of the most recent state legislature are House Bill 341 and Senate Bill 313, both effected in July, 1975. The former, an "Open-Space Land and Voluntary Conservation Easement Act," is applicable to a discussion of state subdivision laws in that its implementation can prohibit or limit subdivision of urban or nonurban land. Public bodies, such as cities, counties and state agencies, and certain private organizations are now able to impose a conservation easement to perpetuate the land's natural state.

¹"Subdivision Analysis: Missoula County, Montana," by the Missoula Planning Board Staff, April 1974, p. 14.

² Ibid.

Senate Bill 313 states that all county Clerk and Recorder offices must keep an index of subdivision plats containing certain information and that contracts to sell property (as well as deeds, grants and other transfers) must be recorded. This law will improve the comprehensiveness of property transfers and the availability of public information.

County Laws

Generally speaking, the four counties involved in this inventory have adopted subdivision regulations very similar to those recommended by the state as model laws.

The counties have adopted SB 208 definitions of: division of land, occasional sale, plat, certificate of survey, and subdivision. Subdivisions are divided into rural and urban-suburban types. The former is one within which the density of development is not more than one dwelling unit per acre, excluding public roadways. The latter category includes subdivisions within which density is greater than one dwelling unit per acre, excluding public roadways.

STATE SUBDIVISION LAWS: BRIEFS

(1) 1961: 37th Legislature, Senate Substitute for SB 41, Chapt. 95

Public Policy: The legislative assembly has determined that the health and safety of Montana citizens are being endangered by drainage from cesspools, septic tanks, privies, water closets, and other sources of polluting matter by liquid raising to the ground surface creating nuisances and seeping into drinking water supplies obtained from wells, springs, streams, lakes and ponds. It is declared the public policy of this state to extend the present laws controlling water supply and sewage disposal to include individual wells that may be affected by adjoining sewage disposal and individual sewage systems that may affect adjoining wells.

Definitions: subdivision: division of land creating five or more parcels any of which is less than five acres, along an existing or proposed street, highway easement or right-of-way

Filing & Approval: All subdivision plats subject to sanitary requirements but Clerk and Recorder can record plat without regard to sanitary requirements provided sanitary restrictions are attached to plat

No building, the use of which by persons necessitates supplying water, sewage or waste disposal, shall be built until such restriction has been removed or modified

Plat can be submitted to state board of health any time prior to or after filing for approval

Bill pertains to public and private facilities

(2) 1967: 40th Legislature, Chapter 197

Definitions: subdivision: division of land creating two or more parcels, any of which is less than five acres, along an existing or proposed street, highway easement or right-of-way

Filing & Approval: (Added Clause) Conditional state board of health approval can be given after construction of part of water and sewage system

(3) July 1 1973: 43rd Legislature, SB 208, Chapt. 500, "Montana Subdivision and Platting Act"

Public Policy: To promote the public health, safety and general welfare by regulating the subdivision of land; to prevent overcrowding of land; to lessen congestion in streets and highways; to provide for adequate light, air, water supply, sewage disposal, parks and recreation areas, ingress and egress, and other public requirements; to encourage development in harmony with the natural environment; to require uniform monumentation of land subdivisions and transferring interests in real property by reference to plat or certificate of survey.

(2) 1967: 40th Legislature, Chapter 197

Definitions: subdivision: division of land creating two or more parcels, any of which is less than five acres, along an existing or proposed street, highway easement or right-of-way

Filing & Approval: (Added Clause) Conditional state board of health approval can be given after construction of part of water and sewage system

(3) July 1 1973: 43rd Legislature, SB 208, Chapt. 500, "Montana Subdivision and Platting Act"

Public Policy: To promote the public health, safety and general welfare by regulating the subdivision of land; to prevent overcrowding of land; to lessen congestion in streets and highways; to provide for adequate light, air, water supply, sewage disposal, parks and recreation areas, ingress and egress, and other public requirements; to encourage development in harmony with the natural environment; to require uniform monumentation of land subdivisions and transferring interests in real property by reference to plat or certificate of survey.

Definitions: certificate of survey: a drawing of a field survey prepared by a registered surveyor for the purpose of disclosing facts pertaining to boundary locations.

subdivision: the division of land into two or more parcels, whether contiguous or not, any of which is ten acres or less, excluding roadways; including condominiums or areas providing space for camping trailers, house trailers or mobile homes, regardless of parcel size.

Division of land into parcels ten acres or less or boundaries of which cannot be determined without survey must be surveyed by registered surveyor and certificate of survey filed by Clerk and Recorder

All divisions of sections into aliquot parts and retracement of lines must conform to U.S. Bureau of Land Management instructions

Exempt from these requirements are divisions of land which:

- are created by court order
- are created by lien, mortgage or trust indenture
- create an interest in oil, gas, water or minerals being severed from surface ownership of property
- creates cemetery lots
- are gifts or sales within immediate family
- are leased or rented for farming and agricultural purposes

Filing & Approval:

All cities and counties must adopt subdivision regulations by July 1, 1974, which will contain minimum requirements set down by Division of Planning and Economic Development

County and city regulations must provide for the orderly development of their jurisdictional areas; coordination of roads within subdivided land with other roads, existing and planned; for dedication of land for roads and utility easements; for improvement of roads; for provision of adequate open spaces for travel, light, air and recreation; for provision of adequate transportation, water, drainage, and sanitary facilities; for avoidance or minimization of congestion; for avoidance of subdivisions which would involve unnecessary

environmental degradation; avoidance of danger or injury to health, safety or welfare by reason of natural hazard or lack of water, drainage, access, transportation or other public services or would necessitate an excessive expenditure of public funds for supply of such services.

Required submission by subdivider to governing body of environmental assessment accompanying plat; assessment to include: description of topography, vegetation and wildlife, bodies and streams of water in area of subdivision; soil types and suitability; impact on public services

Local regulations for summary approval for plats of five or less parcels all fronting on existing public road

Park dedication:

- any lot five acres or less: 1/9 of area
- all lots more than 5 acres: 1/12 of area
- all lots more than 10 acres: none required

In lieu of land dedication, cash can be accepted if dedication is undesirable for various reasons

Exempt from park dedication:

- Planned Unit Development with planned common area
- if subdivider provides park
- subdivision with lots five acres or more, with covenant running with land that lots are not to be subdivided into lots less than five acres each and that all lots to be used for single-family dwellings

Final subdivision plat must be filed with Clerk and Recorder before interest in subdivision can be sold, rented, leased or otherwise transferred

All covenants will run with the land

Any plat can be vacated in whole or in part

Clerk and Recorder required to maintain index of all recorded subdivision plats and certificates of survey, listing by legal description and listing filing numbers, names of subdivision plats and place where filed.

(4) July 1 1974: 43rd Legislature, HB 1017

Amended 1973 Subdivision and Platting Act as follows:

Definition: subdivision: division of land into one or more parcels of less than 20 acres, excluding roads

Required survey of irregular tracts of land, defined as parcel other than aliquot part of government section

The following are not considered subdivisions but must still be surveyed:

- relocation of common boundary lines
- gift or sale within immediate family
- lots for agricultural purpose
- occasional sale
- subdivision created by rent or lease

Exemptions to these regulations are: (Added Clause)

- estate reservations

Filing & Approval:

Subdivisions within an area covered by a master plan or with less than 10 parcels and less than 20 acres can be granted exemption from environmental assessment requirement

Added to exemptions from park dedication is case where subdivider agrees to create property owners association to which will be deeded land for park or playground equalling 1/9 or 1/12 of land area, depending on total acreage

(5) May 1 1975: 44th Legislature, SB 227

Filing & Approval:

Required plats of subdivisions (including condominiums, camping vehicle spaces and mobile homes) to have state board of health remove sanitary restrictions before plat can be filed, any lot sold, or any dwelling erected

State board of health established fee of not more than \$15 per parcel for services rendered in review of plats and subdivisions

Established criteria for review by the Department of Health and Environmental Sciences for determination of a subdivision plan for conformance with sanitary restrictions

- (6) April 21 1975: 44th Legislature, HB 666, "An Act Requiring Disapproval of a Subdivision in the Absence of a Demonstrated Public Interest"

Public Policy: (same as SB 208, except): to require (rather than encourage) development in harmony with the natural environment; to require that approval of any subdivision be contingent upon a written finding of public interest by the governing body

Filing &
Approval:

Approval, conditional approval or disapproval to be based on whether preliminary plat, environmental assessment, public hearing, planning board recommendation and additional information demonstrate that development of subdivision would be in public interest. Written findings to weigh basis of need for subdivision upon expressed public opinion and effects on agriculture, local services, taxation, natural environment, wildlife and wildlife habitat, and public health and safety

- (7) July 1 1975: 44th Legislature, HB 341, "Open-Space Land and Voluntary Conservation Easement Act"

Public Policy: Recognition of rapid spread of population in urban and rural areas which is disrupting natural areas, biotic communities, geological formations, etc., and creating problems of lack of open space

Authorizes public bodies and certain private organizations voluntarily to provide for preservation of native plants or animals, biotic communities, or geologic formations of scientific, aesthetic or educational interest, in perpetuity or for term of years

Conservation easement is granted to urban or nonurban land; easement may prohibit or limit:

construction of structures; landfill dumping; removal of vegetation; excavation or dredging; activities detrimental to drainage or flood control, or other aspects of fish and wildlife conservation; subdivision of land

(8) July 1 1975: 44th Legislature, SB 313

County Clerks must record and index county deeds, grants, and transfers, and contracts to sell or convey real estate and record grantor, grantee, date of transfer, and where recorded. Clerk must keep index to filed subdivision plats containing number of lots, number of acres, filing date and legal description.

PROPERTY IDENTIFICATION: Subdivision - 9

NAME: Greenland Park (mobile home park)

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.13N., R.18W., P.M.,M., Sec. 16, SW $\frac{1}{4}$ (portion)

AREA: West Riverside, north of Milltown

FILING DATE: 1-28-74 DEVELOPER/OWNER: J. McFarland

TOTAL ACRES: 10 NUMBER OF LOTS: 42

STAGE OF DEVELOPMENT: APPROVAL: County; State

LOTS SOLD: none (all owned by J. McFarland)

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: year long

ACCESS: Three interior roads planned. Contiguous, county-maintained streets. No roads existing in platted area, but there is access to property via Flagler Road on south and existing 30-ft. road easement on east, which leads to old highway #200.

COVENANTS: none

HABITAT: Back end of property rises steeply causing severe building limitations. Bunch grass covers area with scattered lodge pole pines on slopes.

PROXIMITY TO PUBLIC LAND: 1.5 miles

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 10

NAME: Heilgate Pines Additions No. 1 and 2

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.12N., R.18W., P.M.,M., Sec. 12, SE $\frac{1}{4}$

AREA: 2 miles southeast of Turah along Clark Fork River

FILING DATE: No.1: 10-70 DEVELOPER/OWNER: Heilgate Land Co., inc.
No.2: 1-72 2300 Regent, Missoula

TOTAL ACRES: 148 NUMBER OF LOTS: 58

STAGE OF DEVELOPMENT: APPROVAL: County; State

LOTS SOLD: No.1: 20 sold; 4 on contract-for-deed
No.2: 27 sold; 7 on contract-for-deed

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: No.1: Access to County Rte. #46; one interior road (Heilgate Lane) at northwest corner of property.

No.2: County Rte. #46 forms northeast border of property. One interior road (Hampton Drive). County road provides access to Interstate 90.

COVENANTS: Selected list of restrictive covenants which run with the land and apply to both Additions:

Only residential use of buildings; no animals except on 9-Ac. and larger lots, 1 cow or horse; no big-game hunting; only single-family houses with garage for not more than 3 cars; no old buildings can be moved onto property; architectural control committee; no temporary structures except mobile homes if on permanent foundation; no noxious or offensive activities; no buildings built at less than cost of value of prevailing building costs; ground floor area of main structure at least 1000 sq.ft. for one-story building.

HABITAT:

PROXIMITY TO PUBLIC LAND: 0.25 mile to small tract

POSSIBLE IMPACT ON PUBLIC LAND: Possible visual impact, but subdivision is located on other side of river and interstate from large BLM tract.

PROPERTY IDENTIFICATION: Subdivision - 11

NAME: Heyer Addition

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.13N., R.18W., Sec. 17, SE $\frac{1}{4}$ (Lot 4)

AREA: Pinegrove

FILING DATE: 6-60 DEVELOPER/OWNER: H. and R. Heyer

TOTAL ACRES: 2 NUMBER OF LOTS: 3

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 2 (Heyer owns one lot)

LOTS DEVELOPED: 3 PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: old highway #200 runs on northeast border of property

COVENANTS: none

HABITAT: Flat topography. Some grassy, open fields.

PROXIMITY TO PUBLIC LAND: 1.75 miles

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 12
NAME: Hilmo's Riverside Turah Tracts
PLANNING UNIT: Blackfoot COUNTY: Missoula
LEGAL DESCRIPTION: T.12N., R.18W., P.M., M., Sec. 12, NE $\frac{1}{4}$ (portion)

AREA: 2 miles southeast of Turah

FILING DATE: 5-17-67 DEVELOPER/OWNER: Ole Hilmo of Turah

TOTAL ACRES: 5 NUMBER OF LOTS: 2

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 2

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: Via County Rte. #46. Subdivision is located between two railroad tracks.

COVENANTS: none

HABITAT: Gently rolling topography. Much vegetation and trees.

PROXIMITY TO PUBLIC LAND: 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: Possible visual impact. Otherwise, no apparent impact.

PROPERTY IDENTIFICATION: Subdivision - 13

NAME: Leischner Tracts

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.12N., R.17W., P.M.,M., Sec. 8, NE $\frac{1}{4}$ SW $\frac{1}{4}$ (Lot 7)

AREA: along Donovan Creek Road near Interstate 90 (Donovan Creek Acres subdivision borders on south of this property)

FILING DATE: 3-71 DEVELOPER/OWNER: L. and B. Leischner

TOTAL ACRES: 34 NUMBER OF LOTS: 18

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 1 sold; 12 on contract-for-deed; 5 owned by Leischner

LOTS DEVELOPED: 17 (some PRICE: mobile homes)

TYPE OF RESIDENCY: yearlong

ACCESS: One interior, gravel road (Pine Cone Drive). Donovan Creek Road forms west border of subdivision.

COVENANTS: none

HABITAT: Gentle sloping topography along Donovan Creek. Dense forests on either side.

PROXIMITY TO PUBLIC LAND: adjacent: one common edge

POSSIBLE IMPACT ON PUBLIC LAND: Possible visual impact. Possible residential-oriented use of adjacent public land.

PROPERTY IDENTIFICATION: Subdivision - 14

NAME: Marshall Canyon Homesites

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.13N., R.18W., P.M.,M., Sec. 18, E $\frac{1}{2}$ NW $\frac{1}{4}$ (portion)

AREA: Marshall Canyon

FILING DATE: 6-57 DEVELOPER/OWNER: L.and M. McDowell; J. and A. Nielson

TOTAL ACRES: 14 NUMBER OF LOTS: 8

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 7

LOTS DEVELOPED: 5 PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: One interior road (McDowell's Drive) provides access to old highway #200 which lies on south corner of property.

COVENANTS: none

HABITAT: Marshall Creek runs north-south along west border of property. Flat topography in small canyon between steep mountainside and hillside supporting Marshall Road.

PROXIMITY TO PUBLIC LAND: 3.5 miles

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 15

NAME: Mountain Acres No. 1 and 2

PLANNING UNIT: Blackfoot COUNTY:

LEGAL DESCRIPTION: T.13N., R.18W., P.M.,M.: Sec. 35, E $\frac{1}{2}$ SE $\frac{1}{4}$ (No. 2)
 Sec. 36, W $\frac{1}{2}$ SW $\frac{1}{4}$ (" ")
 Sec. 36, NW $\frac{1}{4}$ SW $\frac{1}{4}$ (No. 1)

AREA: Turah

FILING DATE: 5-66 DEVELOPER/OWNER: C. Campbell; A. and C. Day

TOTAL ACRES: 52 NUMBER OF LOTS: 14

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 9

LOTS DEVELOPED: 6 (some PRICE: mobile homes); one house presently under construction

TYPE OF RESIDENCY: yearlong

ACCESS: 3 interior roads, two of which are Timber Edge Road and Mountain Road, are unpaved gravel roads. Mountain Road provides access to old Highway 200 on south border of property.

COVENANTS: Selected list of restrictive covenants which run with the land
 Only single-family residential structures; no commercial use or annoying uses; no animals; no trailer, basement, shack, garage, etc. shall be used for residence except as temporary nature for not more than three years from purchase date of lot; only one future subdivision of each lot; no unsightly structures.

HABITAT: Property slopes up towards back lots. Grassy fields; scattered fruit trees.

PROXIMITY TO PUBLIC LAND: 1 mile

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 16

NAME: Mountain View Estates

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.12N., R.17W., P.M.,M.: Sec. 16, S $\frac{1}{2}$ SW $\frac{1}{4}$ (Lots 13 & 14)
Sec. 21, N $\frac{1}{2}$ N $\frac{1}{2}$ NW $\frac{1}{4}$ (Lots 1 & 2)

AREA: West of Interstate 90 and 2 miles north of Clinton

FILING DATE: DEVELOPER/OWNER: M. Palin

TOTAL ACRES: 30 NUMBER OF LOTS: 5

STAGE OF DEVELOPMENT: APPROVAL: County Summary Approval - 9/74

LOTS SOLD:

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: All lots front on existing County Rte. #47; no new roads to be built.

COVENANTS: No further subdivision of lots.

HABITAT: Area is primarily used for hay production. Topography is flat, sloping off at back of lots to Clark Fork River.

PROXIMITY TO PUBLIC LAND: 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: Probable visual impact.

PROPERTY IDENTIFICATION: Subdivision - 17

NAME: Pine Grove Suburban Acres

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.13N., R.18W., P.M.,M.: Sec. 17, S $\frac{1}{2}$ SW $\frac{1}{4}$ (portion)
Sec. 20, NE $\frac{1}{4}$ NW $\frac{1}{4}$ (portion)

AREA: Pinegrove

FILING DATE: 12-53 DEVELOPER/OWNER: C. and B. Clemmensen

TOTAL ACRES: 14 NUMBER OF LOTS: 10 (portion is Pine Grove Trailer Park)

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 5 sold; 1 on contract-for-deed

LOTS DEVELOPED: 4 PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: Three interior roads. Access is provided to Interstate 90.

COVENANTS: none

HABITAT: Flat topography

PROXIMITY TO PUBLIC LAND: 2.25 miles

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 18
NAME: River Bend Addition
PLANNING UNIT: Blackfoot COUNTY: Missoula
LEGAL DESCRIPTION: T.13N., R.18W., P.M., M., Sec. 12, SW¹/₄SE¹/₄ (portion)

AREA: on Blackfoot River and Highway #200, near Marco Flat Picnic Area
FILING DATE: 6-65 DEVELOPER/OWNER: R. and V. McGeoch
TOTAL ACRES: 12 NUMBER OF LOTS: 12
STAGE OF DEVELOPMENT: APPROVAL: County
LOTS SOLD: 11 sold; 1 on contract-for-deed
LOTS DEVELOPED: 7 PRICE: of those recorded: range from \$2500-\$10,500/lot
TYPE OF RESIDENCY: yearlong
ACCESS: One road runs along southeast border and a gravel, loop road provides access to Highway #200.

COVENANTS: Selected list of restrictive covenants which run with the land:
Not more than one dwelling on each lot, with minimum 1000 sq.ft. costing not less than \$15,000 for labor and materials to build. (Exempt is Lot 1 which can have two such buildings.); no structures can have flat roof or shed roof; no commercial use except for on Lot 1; no trailer homes or like structures; no structure can be over 35 feet high; no agricultural use other than saddle horses or household pets, or garden; enclosed burning of trash required.

HABITAT: Sloping topography. Houses nestled among trees along river. Many pine trees, brush below. Blackfoot River forms north and west borders of property.

PROXIMITY TO PUBLIC LAND: 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: No access problems (subdivision lies across highway from BLM tract); no apparent impact other than visual.

PROPERTY IDENTIFICATION: Subdivision - 19
NAME: Spring Valley Acres
PLANNING UNIT: Blackfoot COUNTY: Missoula
LEGAL DESCRIPTION: T.12N., R.17W., P.M., M., Sec. 24, N $\frac{1}{2}$ SW $\frac{1}{4}$
AREA: Clinton
FILING DATE: 7-65 DEVELOPER/OWNER: Hera Corporation
TOTAL ACRES: 57 NUMBER OF LOTS: 32
STAGE OF DEVELOPMENT: APPROVAL: County
LOTS SOLD: 31 sold; 1 on contract-for-deed
LOTS DEVELOPED: 1 PRICE:
TYPE OF RESIDENCY: yearlong
ACCESS: Wallace Creek Road (County Rte. #48) forms south border of subdivision. One interior road.
COVENANTS: Selected list of restrictive covenants which run with the land:
 No non-residential use of lots; only single-family dwellings; all structures must be completed within 2 years of construction start; no unsightly cabins, summer homes or trailers; if permanent residential structure is being built, trailer, garage or basement is permitted up to 2 years; no noxious or offensive activity; no dumping of garbage on property; further subdivision of lots restricted to creation of lots at least 0.5 acre in size.
HABITAT: Heavily wooded; steep slopes on sides of property. Wallace Creek and pond are on property.
PROXIMITY TO PUBLIC LAND: adjacent: one common edge on east border of property
POSSIBLE IMPACT ON PUBLIC LAND: Some dumped autos either on property or in immediate vicinity. Only access road to subdivision leads to BLM land, so appears to be little necessary travel of road beyond subdivision except for public use. Visual impact.

PROPERTY IDENTIFICATION: Subdivision - 20
NAME: Wallace Creek Ranchos
PLANNING UNIT: Blackfoot COUNTY: Missoula
LEGAL DESCRIPTION: T.12N., R.17W., P.M.,M., Sec. 24, SW $\frac{1}{4}$ (portion)
AREA: Clinton
FILING DATE: 6-66 DEVELOPER/OWNER: Hera Corp.
TOTAL ACRES: 13 NUMBER OF LOTS: 4
STAGE OF DEVELOPMENT: APPROVAL: County
LOTS SOLD: 3 sold; 1 on contract-for-deed
LOTS DEVELOPED: 1 PRICE:
TYPE OF RESIDENCY: yearlong
ACCESS: North border is County Rte. #48 (Wallace Creek Road) which leads off Highway #200, and becomes a BLM road after passing through subdivision. One fork of road past BLM sign is washed out. Subdivision lies south of County Road and south of Spring Valley Acres subdivision.
COVENANTS: none
HABITAT: Wallace Creek traverses east-west through all four lots. Heavily wooded, steep slopes on sides of property.
PROXIMITY TO PUBLIC LAND: adjacent; one common edge on east border
POSSIBLE IMPACT ON PUBLIC LAND: Some dumped, wrecked autos on south side of pond. Like Spring Valley Acres, only access road from highway passes through subdivision, then BLM land. Appears to be recreation travel on road beyond subdivision.

PLANNING UNIT: Blackfoot

COUNTY: Granite

LEGAL DESCRIPTION: T.11N., R.16 W., Sec. 15, NW $\frac{1}{4}$ NE $\frac{1}{4}$

AREA: McFarland on Clark Fork River

FILING DATE: 9-4-68

DEVELOPER/OWNER: D. and A McFarland

TOTAL ACRES: 39

NUMBER OF LOTS: 13

STAGE OF DEVELOPMENT:

APPROVAL: County; State

LOTS SOLD: 2 plus 2 contract-for-deed

LOTS DEVELOPED: 2

PRICE: 2-5 Ac. lots
sold together
for \$8000

TYPE OF RESIDENCY: yearlong

ACCESS: Existing road leads from County Rte. #51 (Beavertail Road), over Hellgate River, to subdivision; 3 interior roads (Arlene Drive; Donald Drive; Gene Drive)

COVENANTS: none

HABITAT: Hellgate River runs east-west near north edge of subdivision; flat, pastureland; steep slopes on south edge of subdivision.

PROXIMITY TO PUBLIC LAND: 1 mile

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 28

NAME: Packer Gulch Terrace

PLANNING UNIT: Blackfoot

COUNTY: Granite

LEGAL DESCRIPTION: T.11N., R.14W., P.M., M., Sec. 3, NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$

AREA: Bear Gulch

FILING DATE: 7-25-74

DEVELOPER/OWNER: Mountain View Ranches, of Drummond
(M. Palin - President)

TOTAL ACRES: 296

NUMBER OF LOTS: 50 (covering 27 Ac.)

STAGE OF DEVELOPMENT:

APPROVAL: State; County; not yet approved by
Interstate Land Sales Department

LOTS SOLD: none

LOTS DEVELOPED: none

PRICE:

TYPE OF RESIDENCY: recreational; seasonal (cabin sites)

ACCESS:

8 interior private roads (Packer Gulch Terrace; Fawn Drive; Blue Grouse Drive; Doe Drive; Lookout Point; Buck Drive; Bear Path; Ski Run Drive) maintained by Homeowner's Association. Existing road (Bear Creek) provides access to subdivision via Packer Gulch Dr.

COVENANTS:

Selected list of restrictive covenants which run with the land:
Only private residential use of property; improvements to be maintained in good condition; only single family detached houses with 900 sq.ft. minimum size; no old buildings can be moved onto property; trailer permitted only as temporary residence for not more than 2 years; all construction completed within 24 months of start; non-game animals protected in area; horses permitted in certain areas; no signs, billboards, etc. posted; no roads to be built without approval of architectural committee; all fences to be of poles or wood; no excavation; Mt. View Ranches has right of first refusal on lots for sale; architectural controls on location, color, finish and style of structures.
HABITAT: Grassland; conifer trees and some deciduous trees (aspen); area occupies portion of winter game range (mule deer); few coyotes and bobcats present; blue grouse and ruffed grouse; topography of area is 30% and greater slope.

PROXIMITY TO PUBLIC LAND: adjacent; 4 common edges

POSSIBLE IMPACT ON PUBLIC LAND: Impact on winter game range; possible excessive use of public land in area, especially if developed to capacity and if nearby Palin subdivisions are developed; Bear Creek flows successively through public land and subdivision; probable visual impact on subdivision; common access routes but no apparent conflict.

PROPERTY IDENTIFICATION: Subdivision - 29

NAME: Wild Horse Meadows

PLANNING UNIT: Blackfoot

COUNTY: Granite

LEGAL DESCRIPTION: T.11N., R.14W.: Sec. 10, E $\frac{1}{2}$ SE $\frac{1}{4}$ (portion of)
Sec. 11, W $\frac{1}{2}$ SW $\frac{1}{4}$ (portion of)

AREA: Bearmouth Springs (11 miles west of Drummond and 1 mile north on Bear Creek Road, on Elfer Placer Survey #3271)

FILING DATE: not yet
filed

DEVELOPER/OWNER: Mountain View Ranches, of Drummond
(M. Palin - President)

TOTAL ACRES: 28

NUMBER OF LOTS: 17 ("common area" = 10 Ac.)

STAGE OF DEVELOPMENT:

APPROVAL: State; preliminary County approval

LOTS SOLD: none

LOTS DEVELOPED: none

PRICE:

TYPE OF RESIDENCY: recreational; seasonal (cabin sites)

ACCESS: New roads will have to be constructed, installation and maintenance of which will be paid for by homeowners, as well as the maintenance of existing county road.

COVENANTS: summary: visual regulations (i.e. only certain exterior colors of structures will be allowed; no metal allowed on building exteriors; all utilities to be underground)

HABITAT: Grassland; some conifer trees and some deciduous, such as apple and chokeberry; lots occupy portion of winter game range, primarily for mule deer; few coyotes and bobcats; Blue Grouse and Ruffed Grouse also in area. Slope is less than 15%.

PROXIMITY TO PUBLIC LAND: adjacent

POSSIBLE IMPACT ON PUBLIC LAND: At full development and at 1.5 vehicles/unit, there will be approximately 100 vehicle trips/day, traveling primarily on old highway #200 or Interstate 90, and county road leading to Bear Creek. Probable visual impact on subdivision. Possible overuse of nearby public lands.

AREA: 1.5 miles northwest of Coloma

FILING DATE: 11-6-74 DEVELOPER/OWNER: R. and E. Bingham

TOTAL ACRES: 156+ NUMBER OF LOTS: 8

STAGE OF DEVELOPMENT: APPROVAL: County. (State not required)

LOTS SOLD:

LOTS DEVELOPED:

PRICE:

TYPE OF RESIDENCY: summer

ACCESS: Lots straddle BLM road leading from Highway #200 to Coloma.

COVENANTS: none

PURPOSE OF SURVEY: To create 7 - 20-acre parcels and one occasional sale.

HABITAT: Lots in Lubrecht Experimental Forest

PROXIMITY TO PUBLIC LAND: less than 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: Possible access conflict since lots are on either side of BLM road. Possible visual impact.

PROPERTY IDENTIFICATION: Lot-by-Lot Filing - 1

NAME: "EC Property" (as referred to by Reforestation)

PLANNING UNIT: Blackfoot COUNTY: Missoula

LEGAL DESCRIPTION: T.13N., R.14W., P.M., M., Sec. 26, S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$,
N $\frac{1}{2}$ N $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$. Sec. 27, S $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$,
Sec. 34, NE $\frac{1}{4}$

AREA: Coloma

FILING DATE: not filed; DEVELOPER/OWNER: Reforestation, Inc.
sales occurred 1967-68 12815 East Sprague, Spokane, Wash.

TOTAL ACRES: 640 NUMBER OF LOTS: 27 (20- and 40-Ac. lots)

STAGE OF DEVELOPMENT: APPROVAL: none required

LOTS SOLD: 27 (Sec. 26 - 14) majority sold to out-
(Sec. 27 - 6) of-state parties
(Sec. 34 - 7)

LOTS DEVELOPED: few PRICE: \$1500-2850/lot

TYPE OF RESIDENCY: summer recreational

ACCESS: Road easements reserved by Reforestation; quasi-public roads which are maintained by property owners. Elk Creek Road and Skimmerhorn Road provide access via BLM road leading to Highway #200 through Coloma and Lubrecht Experimental Forest.

COVENANTS: Lot owner gains timber rights once property is paid for; otherwise, no covenants.

HABITAT: Much of area is rugged, with steep slopes and dense forests. Some areas cleared of timber. Topography includes ridges and moderate slopes. Some creeks.

PROXIMITY TO PUBLIC LAND: adjacent: 9 common edges

POSSIBLE IMPACT ON PUBLIC LAND: Probable excessive use of surrounding public lands if lots are fully developed. Possible access conflicts due to patchwork BLM ownership combined with increased use of unimproved dirt roads. Definite visual impact.

PROXIMITY TO PUBLIC LAND: 3 miles

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

LEASED LAND: Lots Leased by United States Forest Service and Anaconda Company

Philipsburg Planning Unit: Granite County

The United States Forest Service leases land at 5 percent of the land value in sizes ranging from 0.25 to 3.0 acres. Use is classified as "summer homes; residential-recreational." Lots within Granite County are located primarily in five areas: (1) Georgetown Lake; (2) Echo Lake; (3) Moose Lake; (4) Kaiser Lake; and (5) Princeton. The total amount of leased land in Granite County is 65.6 acres.

More detailed information follows:

- (1) Georgetown Lake - T.5N., R.14W., P.M.,M., Sec.14, SW $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 24 (Tracts A,B,C)

Acres: 22.94

Lots: 33 grouped into 6 tracts

Developed: 33

- (2) Echo Lake - T.6N., R.13W., P.M.,M., Sec. 31 and 32

Acres: 16.99 (scattered around lake)

Lots: 21

No. Developed: 21

- (3) Moose Lake - T.4N., R.16W., Sec. 36

Acres: 12.15

Lots: 12

No. Developed: 12

- (4) Kaiser Lake - T.4N., R.15W., P.M.,M., Sec. 18, NW $\frac{1}{4}$

Acres: 1.21

Lots: 2

No.Developed: 2

- (5) Princeton - T.8N., R.13W., SE $\frac{1}{4}$, Sec. 25

Acres: 11.09

Lots: 10

No.DevelopedL 10

USFS "special use permits" are more restrictive than privately initiated covenants since they regulate the color of exteriors, styles, finishes, etc. of structures, as well as the usual restrictions against dumping rubbish on property, etc.

The Anaconda Company leases approximately 26 lots within Granite County for residential-recreational purposes. Two major areas are involved: (1) Jericho Bay Residential Tract, and (2) Piney Point, both located near Georgetown Lake.

(1) Jericho Bay Residential Tract - T.5N., R.14W., P.M.,M., Sec. 23

Lots:	10
No. Developed:	9

(2) Piney Point - T.5N., R.14W., Sec. 13

Lots:	16
No. Developed:	16

(based on 2 lot

T11N R11W Sec.

\$317/Ac.

COVENANTS: Timber on property to be used only for fences and buildings to
be built on property during length of contract. Timber rights
transferred to owner when lot is paid for.

HABITAT: Some meadow areas with springs and creeks. Draws and broad
ridges; timber mountains and game country (deer, elk, bear).
Pine and fir are predominant trees. Average elevation: 6400

PROXIMITY TO PUBLIC LAND: Adjacent to several BLM sections. Whole subdivided
area is in vicinity of extensive BLM coverage.

POSSIBLE IMPACT ON PUBLIC LAND: Definite impact of use of public lands in area
if lot owners develop their property as residential/recreational.
Present development potential is 139 lots each of an average
size of 43 acres. Use capacity of USFS summer access roads is
not designed to carry extensive residential activity. Access to
public lands could be hampered, since several existing roads first
pass through lots before providing access to BLM property.
Definite visual impact.

VIRGINIA COULL SEPTEMBER 1975

PROPERTY IDENTIFICATION: Subdivision - 1

NAME: Applegate Estates

PLANNING UNIT: Marysville COUNTY: Lewis and Clark

LEGAL DESCRIPTION: T.11N., R.4W., P.M.,M., Sec. 24, NE $\frac{1}{4}$ NE $\frac{1}{4}$ NE $\frac{1}{4}$

AREA: Private Landing Field, north of Helena

FILING DATE: 6-27-75 DEVELOPER/OWNER: Kershaw Construction, of Helena

TOTAL ACRES: 9 NUMBER OF LOTS: 8

STAGE OF DEVELOPMENT: APPROVAL: County; State

LOTS SOLD: 1

LOTS DEVELOPED: 0 PRICE:
(Environmental Assessment states approx. date of
TYPE OF RESIDENCY: yearlong completed residential construction is 1978)

ACCESS: Four 60-ft. platted roads (Lincoln Road West; Jonathon Road; Bonner Road; Applegate Drive). Note on plat: "Although Lewis and Clark County approves this subdivision, it does not accept responsibility to maintain or improve the street rights-of-way designated on the plat."

COVENANTS: Found in Book 105, Page 658

HABITAT: Cactus and sagebrush cover. Land is sloped 13 ft/1000 ft.

PROXIMITY TO PUBLIC LAND: 1 mile

POSSIBLE IMPACT ON PUBLIC LAND: Environmental Assessment states that "no public lands are affected." Inventory finds no apparent impact.

PROPERTY IDENTIFICATION: Subdivision - 2
NAME: Barbeau Villa Sites
PLANNING UNIT: Marysville COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.10N., R.4W., P.M., M., Sec. 13, S $\frac{1}{2}$ S $\frac{1}{2}$ SE $\frac{1}{4}$

AREA: adjacent to northern Helena city limits

FILING DATE: unknown DEVELOPER/OWNER: C.A. Barbeau

TOTAL ACRES: 6 NUMBER OF LOTS: 8 tracts

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 7

LOTS DEVELOPED: 4 PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: Existing roads provide access (Dunbar Street; Burwood Street, Gregory Avenue)

COVENANTS: none

HABITAT:

PROXIMITY TO PUBLIC LAND: 2 miles

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 3

NAME: Camel Mountain Park Subdivision

PLANNING UNIT: Marysville COUNTY: Lewis and Clark

LEGAL DESCRIPTION: T.10N., R.4W., P.M.,M., Sec. 1, SE $\frac{1}{4}$ (portion)

AREA: Scratchgravel Hills; adjacent to Western Hills Subdivision
and Sewell Tracts Subdivision

FILING DATE: 6-20-73 DEVELOPER/OWNER: Lewis and Clark Land Company

TOTAL ACRES: 21 NUMBER OF LOTS: 24

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD: 2

LOTS DEVELOPED: 1 PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: Two loop roads platted around park areas within two halves
of subdivision (Sahara Court; Mojave Court)

COVENANTS: as of 6-20-73, found in Book 100, Page 434

HABITAT:

PROXIMITY TO PUBLIC LAND: adjacent

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. Development to capacity will
add to detrimental effects of rapid development
within Scratchgravel Hills area (i.e. possible
excessive use of public lands; possible misuse
of land, etc.)

PROPERTY IDENTIFICATION: Subdivision - 4
NAME: Claimstake
PLANNING UNIT: Marysville COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.10N., R.4W., P.M.,M., Sec. 36, NE $\frac{1}{4}$ NE $\frac{1}{4}$

AREA: Last Chance Gulch, within Helena city limits

NAME: Eagle Heights Addition to Leslieton
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.11N., R.2W., P.M.,M., Sec. 35, SE $\frac{1}{4}$ SW $\frac{1}{4}$

AREA: Hauser Lake (Lakeside)

FILING DATE: 5-13-13 DEVELOPER/OWNER: Eagles Hauser Lake Club
TOTAL ACRES: 50 NUMBER OF LOTS: 381
STAGE OF DEVELOPMENT: APPROVAL: County
LOTS SOLD: 220 sold to W. & R. Castles
161 lots unsold
LOTS DEVELOPED: 0 PRICE:

TYPE OF RESIDENCY: yearlong or seasonal
ACCESS: Via several interior roads

COVENANTS: none

HABITAT: Subdivision is located on south edge of Lake Hauser.

PROXIMITY TO PUBLIC LAND: 1 mile

POSSIBLE IMPACT ON PUBLIC LAND: no apparent impact

PROPERTY IDENTIFICATION: Subdivision - 6-A
NAME: Evergreen Estates
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.12N., R.3W., P.M.,M., Sec. 31, SE $\frac{1}{4}$ (portion)

AREA: Sawmill Gulch, about 10 miles north of Helena

FILING DATE: 7-28-70 DEVELOPER/OWNER: D. and F. Peterson, of Helena

TOTAL ACRES: 42 NUMBER OF LOTS: 11

STAGE OF DEVELOPMENT: APPROVAL: State; County

LOTS SOLD: 11

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: One 60-ft. platted road provides access to all lots.

COVENANTS: Selected list of restrictive covenants which run with the land:
Only single-family residences on each numbered lot; no open burning; no temporary structures or old buildings; no commercial use; no animals for commercial purposes; no noxious activities; no further subdivision of lots; no dumping on property; no signs; all undeveloped land within subdivision shall remain agricultural and grazing land until area is built up and over 50% of lots are occupied.

HABITAT: Subdivision lies in foothills at north end of Helena Valley. Slopes: 15-35%. Pastureland.

PROXIMITY TO PUBLIC LAND: 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. When developed to capacity, lots may impact use of nearby public lands.

PROPERTY IDENTIFICATION: Subdivision - 6-B
NAME: Evergreen Estates - Addition
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.12N., R.3W., P.M.,M., Sec. 31, E $\frac{1}{2}$ (portion)

AREA: about 10 miles north of Helena, in Sawmill Gulch

FILING DATE: 6-28-73 DEVELOPER/OWNER: D. and F. Peterson
TOTAL ACRES: 71 NUMBER OF LOTS: 30
STAGE OF DEVELOPMENT: APPROVAL: State; County
LOTS SOLD: 13 sold; 6 on contract-for-deed

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: Subdivision roads and culverts meet County standards. Gravel roads. Four-lane Sawmill Gulch Road runs through subdivision on northeast corner; another existing road in subdivision.

COVENANTS: (same as Evergreen Estates Subdivision)

HABITAT: Subdivision lies in foothills at north end of Helena Valley. Slopes: 15-35%. Severe problem with soils regarding installation of septic tanks and subsurface drainfields. Pastureland.

PROXIMITY TO PUBLIC LAND: 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. EIS report states that impact on groundwater resource will be the removal of groundwater and the lowering of water table. Potential contamination of water by septic tank effluent that would percolate fractured bedrock. Development to capacity may impact use of nearby public lands.

PROPERTY IDENTIFICATION: Subdivision - 7

NAME: Gates of the Mountains Lakeshore Homes

PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark

LEGAL DESCRIPTION: T.12N., R.3W., P.M.,M., Sec. 11, NW $\frac{1}{4}$ (portion)
Sec. 12, E $\frac{1}{2}$ (portion)
(Tracts A and B of HES 379)

AREA: East of upper portion of Holter Lake on "American Bar" property

FILING DATE: 6-21-73 DEVELOPER/OWNER: W. Sternhagen, of Helena

TOTAL ACRES: 226 NUMBER OF LOTS: 91

STAGE OF DEVELOPMENT: APPROVAL: State; County

LOTS SOLD: 8 sold; 11 on contract-for-deed

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong/seasonal

ACCESS: Public access through Montana Power land to lake is provided for by law. Several dirt roads. Two access routes: (1) on Interstate on north from Helena, then road to Boat Club, then across lake by boat; (2) road from Helena to York, to Nelson & on Beaver Creek Rd. to forest road No. 138. Developer plans to keep unimproved forest road as is. Road 138 is USFS/County.

COVENANTS: Selected list: all structures to be wood; no A-frame bldgs., doublewides or trailers; only permanent structures; permanent mobile homes permitted if are affixed to ground, of wood, & rustic in appearance; Indian teepees permitted if of "natural Indian style"; bldg. exteriors must be wood-stained or varnished; home owners' assoc. established; garbage containers concealed; property-owner initiated protection of osprey; horses confined to corrals no larger than $\frac{1}{2}$ acre & not allowed to graze on property; no commercial raising of animals; residential buildings only & only one per lot; all structures to be completed within 1 year of start; buildings no more than 2 stories; required cooperation with USFS; every attempt made to preserve & protect natural environment; no pollution of air, water, visual or serenity of environment; no further subdivision of lots; no cutting of trees.

HABITAT: Topography varies from flat to gently sloping grassland with scattered Ponderosa pine. South end has aspen, willow, cottonwood & chokeberry; scattered rabbitbush, skunkbrush, juniper & rose. Predominant cover is bluebunch wheatgrass.

PROXIMITY TO PUBLIC LAND: adjacent on north side

POSSIBLE IMPACT ON PUBLIC LAND: 3 osprey nests in area are in part in northeast corner. Possible human recreational impact on winter elk range; possible air pollution from dusty roads & incinerators; Gates-of-the-Mountains Boat Club is only commercial docking facility to serve lots: potential overload, here, of humans, pets, autos & boats. Subdivision is very near Gates-of-the-Mountains Wilderness and, with future expansion, would be within 0.5 mile.

PROPERTY IDENTIFICATION: Subdivision - 8
NAME: Guffeys Cove
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark

LEGAL DESCRIPTION: T.10N., R.1W., P.M., M., Sec. 6, NW $\frac{1}{4}$ NW $\frac{1}{4}$ (portion)
T.11N., R.1W., P.M., M., Sec. 31, SW $\frac{1}{4}$ SW $\frac{1}{4}$ (portion)

AREA: Browns Gulch, on Hauser Lake

FILING DATE: surveyed 7-58 DEVELOPER/OWNER: not recorded

TOTAL ACRES: 2 NUMBER OF LOTS: 6

STAGE OF DEVELOPMENT: APPROVAL: not shown on plat

LOTS SOLD: 6

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: seasonal

ACCESS: One existing road shown on plat

COVENANTS: none

HABITAT: Subdivision is located on north edge of Hauser Lake

PROXIMITY TO PUBLIC LAND: adjacent

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. Possible misuse of adjacent public lands from residential-oriented activities on subdivided land.

PROPERTY IDENTIFICATION: Subdivision - 9
NAME: Holter Lakeshores
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.14N., R.3W., P.M.,M., Sec. 27, SW¹₄SW¹₄ (portion)

AREA: west shore of Oxbow Bend on Holter Lake

FILING DATE: 6-29-73 DEVELOPER/OWNER: B. and B. Nelson
TOTAL ACRES: 23 NUMBER OF LOTS: 35 (sizes range from 0.459 acre to 1.34 acres)
STAGE OF DEVELOPMENT: APPROVAL: State; County
LOTS SOLD: 6 sold; 1 on contract-for-deed

LOTS DEVELOPED: as of 8-29-73, starts PRICE:
TYPE OF RESIDENCY: on 7 lots even though sanitary restrictions still in effect
yearlong/seasonal

ACCESS: Strictly limited to water transportation due to regional topography which prevents construction of access roads. Several 10-ft. and 20-ft. right-of-way easements platted, most likely for alleys or foot paths.

COVENANTS: All sewage disposed of through approved incinerator units; no exposed garbage containers; no trash burning; exteriors must be maintained - colors to blend in with natural surroundings; establishment of architectural control committee; no pollution; no disturbances of wildlife.

HABITAT: Lakeshore environment, except for 6 lots which have 20-ft. easement access to lake. Moderately steep to steep mountainous rocklands with little soil development. Native grass species with some associated forbs. Few Ponderosa pines & juniper; few head of cattle. On steep lots, angle starts at 40°.

PROXIMITY TO PUBLIC LAND: adjacent: one common corner

POSSIBLE IMPACT ON PUBLIC LAND: No detrimental impact to big game species. Possible visual impact due to constructing on steep, mountainous lakeshore property. Possible increased sedimentation in Holter Lake due to construction on steeper slopes.

PROPERTY IDENTIFICATION: Subdivision - 10-A

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact; otherwise, no apparent impact.

PROPERTY IDENTIFICATION: Certificate of Survey - A
NAME: No. 242656
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.10N., R.3W., P.M.,M., Sec. 33, W $\frac{1}{2}$ SW $\frac{1}{4}$

AREA: adjacent to east Helena city limits

FILING DATE: 2-14-74 DEVELOPER/OWNER: not recorded

TOTAL ACRES: 82 NUMBER OF LOTS: 3

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD:

LOTS DEVELOPED:

PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: none shown on plat; access is most likely provided by two city/county (existing) roads.

COVENANTS: none

PURPOSE OF SURVEY: to create three tracts

HABITAT: several creeks and streams run through tracts

PROXIMITY TO PUBLIC LAND: 0.5 mile

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. Possible impact on use of public lands in vicinity, if tracts are developed to capacity.

PROPERTY IDENTIFICATION: Certificate of Survey - B
NAME: No. 242842
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark
LEGAL DESCRIPTION: T.11N., R3W., P.M.,M., Sec. 2 (except SW $\frac{1}{4}$ SE $\frac{1}{4}$)
Sec. 3, N $\frac{1}{2}$ (except Tract 5)

AREA: 2 miles north of Lake Helena

FILING DATE: 2-22-74 DEVELOPER/OWNER: not recorded

TOTAL ACRES: 880 NUMBER OF LOTS: 22

STAGE OF DEVELOPMENT: APPROVAL: County

LOTS SOLD:

LOTS DEVELOPED: PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: Several 60-ft. rights-of-way partially platted

COVENANTS: none

HABITAT: several creeks and streams flow through lots

PROXIMITY TO PUBLIC LAND: adjacent: 5 common edges

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. Probable excessive use of adjacent BLM land, particularly if tracts are developed to capacity. Possible access conflicts: five existing access routes to public land sections now pass first through subdivided area before entering public lands. Several creeks flow from BLM land into subdivided area. Possible misuse of public land from residential-related activities in subdivided area.

PROPERTY IDENTIFICATION: Certificate of Survey - C

NAME: No. 245025

PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark

LEGAL DESCRIPTION: T.10N., R.3W., P.M.,M., Sec. 31, S $\frac{1}{2}$ S $\frac{1}{2}$

AREA: within Helena city limits, south side

FILING DATE: 5-20-74

DEVELOPER/OWNER: not recorded

TOTAL ACRES: approx.152

NUMBER OF LOTS: 15 tracts (all slightly more than 10 Ac

STAGE OF DEVELOPMENT:

APPROVAL: County

LOTS SOLD:

LOTS DEVELOPED:

PRICE:

TYPE OF RESIDENCY: yearlong

ACCESS: One private right-of-way platted through lots.

COVENANTS: none

PURPOSE OF SURVEY: to create 15 tracts of land

HABITAT: One creek runs through tracts.

PROXIMITY TO PUBLIC LAND: less than 0.25 mile

POSSIBLE IMPACT ON PUBLIC LAND: Visual impact. Possible excessive use of nearby public lands if tracts are developed to capacity.

PROPERTY IDENTIFICATION: Certificate of Survey - D
NAME: No. 245179 (McLean and Madill Tracts)
PLANNING UNIT: Gates of the Mountains COUNTY: Lewis and Clark

COUNTY: Lewis and Clark
Sec. 17, W $\frac{1}{2}$, N $\frac{1}{2}$ SE $\frac{1}{4}$

LEGAL DESCRIPTION: (various) T.15N., R.5W., P.M.,M., Sec. 3

Sec. 7, NE $\frac{1}{4}$

Sec. 7, NE $\frac{1}{4}$ SE $\frac{1}{4}$

AREA:

Sec. 17: Woods Creek

Sec. 3: north of Lannigan Mountain

Sec. 7: Denton Mountain

FILING DATE: unknown

DEVELOPER/OWNER: Wolf Creek Canyon, Inc.

Sec. 3: 640

TOTAL ACRES: Sec. 7: 200

NUMBER OF LOTS:

Sec. 3: 32 @ 20 acres

Sec. 17: 360

Sec. 7: 10 @ 20 acres

Sec. 17: 18 @ 20 acres

STAGE OF DEVELOPMENT:

APPROVAL:

LOTS SOLD:

LOTS DEVELOPED:

PRICE:

TYPE OF RESIDENCY: seasonal

ACCESS: no existing roads in all three sections

COVENANTS:

HABITAT: numerous creek and springs run through all sections

PROXIMITY TO PUBLIC LAND: Sec. 3: 1.75 miles
Sec. 7: adjacent; one common corner
Sec. 17: 1 mile from 40-acre tract

POSSIBLE IMPACT ON PUBLIC LAND: Sec. 3: no apparent impact
Sec. 7: Visual impact. Development to capacity with residential use would add to detrimental effects of entire developed area on public lands in vicinity.
Sec. 17: no apparent impact

RECOMMENDATIONS

This report's organization permits a continual monitoring and updating of the Missoula District. Information can be added to the property identification sheets and maps upon discovery.

Although sources of information for this project were thoroughly researched, there is much unrecorded data yet uncovered. A follow-up study based on this inventory could make more comprehensive the collection of data. As a possible future WICHE project, the follow-up study would have the majority of research already completed, a task which proved to take up the entire twelve weeks of this project. It seems that a person trained in planning or environmental sciences could best accomplish a follow-up study.

An analysis of the collected information to show present and projected land use trends within private ownership would be a significant aid to the Bureau of Land Management's planning program.

I would like to express my appreciation to the following people and agencies for their help and advice offered to me during the inventory project: Mr. John Fields, Mr. Carl Lind, Mr. David Brunner, Mr. Darrell Sall, Mr. Dave Pickett, Mr. Jim Hausauer, draftsman, and the staff of the Bureau of Land Management, Missoula District Office; Mr. Jim Mohler, professional photographer; Ms. Karyn Robb and Mr. Dan Obermeyer, Missoula County Planning Department; Ms. Tina Torgrimson and the staff of the Environmental Information Center, Helena; Mr. Silvan Lutey, Granite County Planning Director; Mr. Bill Smetz, Powell County Planning Commissioner; Department of Revenue, Property Appraisal Department in Helena; Mr. Alfred Keppner, Soils Scientist, Department of Health and Environmental Sciences; Mr. Dale Freeman, Reforestation, Inc.; the Clerk and Recorder offices and Assessor's offices, Missoula, Granite, Powell and Lewis and Clark counties; and the Legislative Council Office in Helena.

Tomlinson, William D., WICHE Intern. "Environmental and Legal Problems of Land Development in Montana," October 25, 1972.

This intern report was read and accepted by a staff member at:

Agency: Bureau of Land Management

Address: P.O. Box 4427 Missoula , MT 59801

This report was completed by a WICHE intern. This intern's project was part of the Resources Development Internship Program administered by the Western Interstate Commission for Higher Education (WICHE).

The purpose of the internship program is to bring organizations involved in community and economic development, environmental problems and the humanities together with institutions of higher education and their students in the West for the benefit of all.

For these organizations, the intern program provides the problem-solving talents of student manpower while making the resources of universities and colleges more available. For institutions of higher education, the program provides relevant field education for their students while building their capacity for problem-solving.

WICHE is an organization in the West uniquely suited for sponsoring such a program. It is an interstate agency formed by the thirteen western states for the specific purpose of relating the resources of higher education to the needs of western citizens. WICHE has been concerned with a broad range of community needs in the West for some time, insofar as they bear directly on the well-being of western peoples and the future of higher education in the West. WICHE feels that the internship program is one method for meeting its obligations within the thirteen western states. In its efforts to achieve these objectives, WICHE appreciates having received the generous support and assistance of the Economic Development Administration; the Jessie Smith Noyes Foundation; the National Endowment for the Humanities; the Wyoming Office of Manpower Planning; and of innumerable local leaders and community organizations, including the agency that sponsored this intern project.

For further information, write Bob Hullinghorst, Director, Resources Development Internship Program, WICHE, P.O. Drawer 'P', Boulder, Colorado 80302 or call (303) 492-7177.
